'Masha Rescues Grandma' is a little Point-and-Click adventure.

The game is based on the fairy tale 'Rotk\u00e4ppchen' (Little Red Riding Hood), which is not only known in Germany, but is found in variations in the European area. Above all, it became common knowledge for us because it was published in the extremely successful collection "Children's and Household Fairy Tales" by the Brothers Grimm in the early 19th century. In the story, a little girl in a red headscarf is supposed to visit her grandmother, who has already been affected by a wolf.

The game is nicely drawn and easy to play.
